DETAILED ACTION

- 1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on March 9, 2004 has been entered.
- 2. Claims 7,8,10,12,15 and 16 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hutcheson (5,296,024).

By Applicant's own admission based on tests performed by Applicant, Hutcheson shows the claimed composition, see remarks, page 7 of the amendment filed on March 9, 2004. Therefore the Hutcheson's paper inherently has the claimed brightness and opacity or at the least it would be a optimizing the desired brightness and opacity.

3. Claims 7,8,10,12,15 and16 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The presence of deinked pulp is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). See page 4 of the instant specification.
